Lawrence Says G. O. P. Is Hurt by \$1,000 Limit While Frisco Convention Was Expensive for Delegates.

BY DAVID LAWRENCE,

(Special Correspondent of The News Scimitar.)

Mistake Expensive.

CHICAGO. July 27.—Campaign finances of both the Republican and Pemocratic parties are in none too good condition. Each side is handicapped by a peculiar set of circumstances cuticely apart from the supposed restraints which the senate investigating committee was expected to apply this year to excessive xpending.

The Republicans are embarrassed because in a moment of indiscretion they committed themselves to \$1,000 as the limit of the contributions something that not only prominent Republicans but on-looking Democrats say is wholly impractical for a short campaign. The Democrats are affected by no such limits and can take any sums they please, but Wilbur Marsh. Democratic national treasurer, who was here today, declared the Democrats would reserve the right to refuse to accept contributions from sources not deemed sufficiently disinterested. The Ismocrats, however, are in bad shape because the San Francisco convenible took at least 500 apiece for travel and hotel expenses from the individual delegates and also delayed the organization of the Democratic campaign committee so that while the Republicans of the Pemor have been at work for several weeks.

M Millerand will refuse to accept to the Wangle, the nuit-like surfact in the Russian note for the surrender of them Wrangle, the nuit-like sheater in Chen Wrangle, the nuit-like sheater in the Sustaint will be participate in the Russian note for the surrender of the Wrangle, the nuit-like sheater in Chen Wrangle, the nuit-like sheater in the Sustaints in the Russian note for the surrender of the Lender of the Lender of the Lender of the Lender of the Surface of the Person have been at work for several weeks. money for a deficit after the election result is once known is an almost impossible task.

The theory behind the Republican approach to the question of finance is entirely different from that being adopted by the Democrats. The Republicans are depending upon large subscriptions up to \$1,000, and they must raise at least \$5,000,000. It is much harder to get 50,000 persons to contribute \$1,000 apiece than it is to get 50,000 persons to give \$100 each, for the first must be accomplished by individual canvass and soliciting while the second might be collected through a mail organization if there were time to build one. It isn't that \$,000 Republicans can't be found to give \$1,000 each, but all contributions must be made public and the art of giving money to campaigns is not highly developed except in a small circle in both Republican and Democratic parties.

The best system yet devised is the one the Democrats established just after the close of the 1916 campaign, when they found themselves confronted with a deficit. Wilbur Marsh, of Iowa, director of finance, organized a regular financial factory which did nothing but write chain letters asking for small subscriptions. Five men would be asked to give small sums, for instance, and each requested to send in the names of five other persons who might be interested in contributing equal amounts. Three of the Memphis marine rea cruiters have returned from the marine corns institute at Quantico, Va.,

While at the school the three sergeants took their annual target range

Smith, Post and Dessau are more than
gliad to see them return to Memphis,
as it has been a poted fact that these
three sergeants have always been a

UNFURL SERVICE FLAG AT CHURCHTON CHURCH

The Republicans have mistakenly educated organizers in some of the populous states to pay their workers, and it is difficult to awlich from a paid to a volunteer hasis. In a few places where the Deemocratic state organizations have acquired a powerful influence the same system of paying workers obtains, but generally speaking, neither political party could afford to buy the services of many workers on election day without subjecting themselves to embarrassments. NEWBERN, Tenn., July 27. (Spl.) NEWBERN, Tenn., July 27 (Spl.) The service flag of the Churchton

So there are Republicans who wish so there were the policy of asking for small and the policy of asking for small and the larger subscriptions. It is made approved the policy of the subscriptions. It is made approved that the party is the larger subscriptions. It is made approved that the party is the respect to campaign frameworks and the same of the first to reject contribution from sources not considered distinct results.
